About SDM University, Dharwad

Shri Dharmasthala Manjunatheshwara University (SDM University), established under the Karnataka Private Universities Act, 2018, is a premier multidisciplinary university in North Karnataka. Guided by the vision of Rev. Dr. D. Veerendra Heggade, Dharmadhikari of Dharmasthala and Chancellor of SDM University, the institution promotes quality higher education rooted in ethics, service, and innovation.

The university excels in health sciences and allied disciplines through its constituent institutions in Medicine, Dentistry, Physiotherapy, Nursing, Biomedical Sciences, Pharmaceutical Sciences, and Allied Health Sciences.

Key Highlights

- UGC-recognized private university
- Ranked No. 2 among “Top Private Universities (Medical & Allied)” by IIRF
- Ranked No. 5 among “Top 100 Private Universities” by IIRF
- Featured among Outlook’s Top 20 Private Medical Universities in India
- Strong focus on community outreach and national health programs

About SDM Institute of Nursing Sciences (SDMINS)

Established in 2006, SDM Institute of Nursing Sciences is a premier nursing institution under SDM University, Dharwad. The institute functions in close association with SDM College of Medical Sciences & Hospital, a 1311-bedded tertiary care teaching hospital providing rich clinical exposure.

The institute offers B.Sc. Nursing, M.Sc. Nursing, GNM, and GDHA programs in accordance with Indian Nursing Council (INC) and Karnataka State Nursing Council (KSNC) norms.

Distinctive Features:

- Skill-based and competency-driven curriculum
- Advanced simulation and skill laboratories
- Clinical exposure at a 1311-bedded teaching hospital
- Research-oriented faculty with publications in reputed journals
- Community health services and outreach programs
- Ranked among the **Top Nursing Colleges in India**

Target Participants:

- B.Sc. Nursing V Semester Students
- M.Sc. Nursing Students
- Nursing Faculty
- Nursing Instructors

Learning Outcomes:

At the end of the program, participants will be able to:

1. Recognize early signs of critical illness in children
2. Identify early signs of cardiopulmonary arrest
3. Demonstrate the use of airway and oxygen adjuncts for ventilation and airway control
4. Differentiate between respiratory distress and respiratory failure
5. Perform prompt interventions in respiratory distress and respiratory failure
6. Explain indications and dosages of medications used in cardiopulmonary arrest
7. Demonstrate competency in pediatric cardiopulmonary resuscitation (CPR)
8. Provide effective post-cardiac arrest management
